EE 491 Weekly Report   MAY15-17   Week 1 (8/24/14-8/31/13)

Advisors: Dr. Mitra   **Client:** Workiva
Members (roles): Caleb Brose (Team Lead), Chris Fogerty (Communication Lead), Nick Miller (Webmaster), Zach Taylor and Rob Sheehy (Key Concept Holders)
Project Title: System for Managing Execution Containers in a Cloud Environment

Weekly Summary

Our goal was to get in contact with both Dr. Mitra and Dave, from Workiva. Unfortunately, Dave is out of town this week, so further clarifying the requirements may be a bit difficult until he gets back. Found a few good articles on Docker and Go, two technologies we believe to be at the heart of the project.

Meeting notes:

9/8   Group Meeting with Dr. Mitra
Duration: *20 min*   **Members Present:** *All*

Purpose and Goals:
Establish contact with Dr. Mitra. Find out what he expects of us, and set up a weekly meeting time.

Achievements:
As a group, we have a weekly meeting time, and Dr. Mitra is aware of the delay we'll have on working with Workiva this week, due to our main point of contact being out of town.

Pending issues
1. Workiva contact is out of town, so we were unable to further clarify project.

Plans for next week
